Hmm... Regardless of Sabrina's desk copies, the final deliverables should have been loaded into the records center when UOS START3 closed out 2 years ago. I'll look into this further.

Dan – Awhile back I had asked Sabrina for these other docs and she didn't have them.

Hi Dan,

Do you have site assessment information for the Rose/Walsh Smelter in San Juan County (see below)?

Paula Schmitt diel needs the records for this site and so the Records Center does not seem to have them.

Thank you!

Hello Paula – I've not been able to locate these two reports, though I've found a number of citations of them in other documents. In any case, they are not currently held in the Records Center. I am cc'ing my library colleague, Dedre Henderson, who may well be able to track them down for you elsewhere.

Dedre, the two documents were produced by URS Operating Services (UOS) in 2005 and 2006.

Paula, sorry to not have been of more help with this particular inquiry.

Best wishes,

Marcus

Marcus – Can you search the records for the following 2 documents – they might be in a Site Assessment or Brownfield Assessment file.

- Analytical Results Report, Rose and Walsh Smelter, San Juan County, Colorado (UOS 2005a) and

- Technical Memorandum, Human Health Risk Evaluation for the Rose and Walsh Smelter, San Juan County, Colorado (UOS 2006).

I need them as soon as possible. Thank you.
